

**Adaptable** solution in print quality control

# MagneCAM HD™ *Plus*

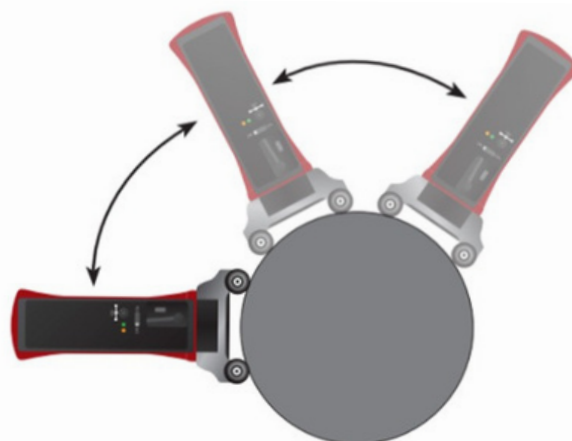

## **Introducing the MagneCAM HD™ *Plus***

*Featuring a proprietary magnetic holding system, our device boasts quick-release action, allowing it to be effortlessly positioned on any cylinder or roll at various angles.*

## **MagneCAM Features**

### **Secured with Magnetic Legs**

Position your AniCAM HD™ *Plus* or SurfaceCAM on steel cylinders or rolls rotated at any angle. Our solution incorporates quick-release magnetic legs and special internal drive couplings.

### **Precision in Any Environment**

Whether it's embossing steel cylinders or mounted anilox rolls, our solution delivers unparalleled accuracy, surpassing ink draw-down or cell impressions methods.

### **Optimal Fit and Functionality**

Compatible with cylinders or rolls starting from a minimum diameter of 100mm. Additionally, the Y-axis micro-adjuster feature can not be fitted with the MagenCAM legs.

If you can't **measure** it,  
you can't **control** it.
